### Correspondence.

BROOKLYN, MAY. 10, 1888, When the Rev. or Talmage remarked last Sunday that "Spirtualism was an unclean, adulterous and abominable doctrine, and the sooner it goes down to the hel! from which it came up, the better for earth and heaven," did he forget himself, or did he really mean to consign his chief henchman and deacon, Dr. Harrison Tucker to the fires of Sheol? Did he include all the members of his church and congregation who believe in the practical immortality of the soul? And just here I am reminded of a story On one occasion the Rev. Henry Ward Beecher was approached by a mother whose daughter, a most intelligent young woman, and a member of Plymouth Church, had | tially supplies the missing information. become interested in the subject of spiritualism. "You must labor with her, Mr. Beecher," said the lady, "and if you find her obstinate, threaten to excommunicate her." "That, madam, would be something of a joke," said the minister with a twinkle of the eye, " because if folks with spiritualistic tendencies were to be cut off from Plymouth Church, I shouldn't have a corporal's guard to preach to." Now this is the same with the Tabernacle people. I know of menibers of this church who go to hear Mr. Talmage in the morning, and hold seances at their own or their friends' houses in the evening. Many mediums are well supported by the Talmage people. The pastor may not be aware of this particular state of things, but he does know that Dr. H. A. Tucker is a clairvoyant, and a trance medium, and I believe I am correctly informed that this exceedingly wealthy man, made so by this trance traffic- has prescribed and still continues to prescribe for the Talmage family. Now If this man belongs in hell, why is he allowed to have the best seat in the Tabernacle, and manage the most important affairs of the church? Now I maintain that in these utterances of the Rev. Dr. Talmage there is neither consistency, charity, religion, dignity or decency. If he had been satisfied with warning his people of the great danger to health-and there is none greater-from promiscuous seances and the consequent excitement of the nerves, he would have performed a

feetly willing to help this work along, to put an extra tension upon these screaming, howling, dancing creatures, everynerve stretched to the utmost limit, some of the "convicted" falling to the floor in dead faints or trances. A scance conducted in this fashion would be interlered with by the police-and justly so. I attended one of these meetings the other evening, and it did not seem credible that such things could go on, even semi-civilized community. One hysterical weman was surrounded by a lot of the elders, some singing and clapping their hands, others groaning and praying -chief among them Stephen B. Merritt-General Grant's dissatisfied undertaker, while the boy preacher rubbed his hands and groaned and shouted in alternation. There is need enough on this subject o Spiritualism, and Mr. Talmage might have done some good if h . had shown the proper spirit. But bigotry and intolerance and denunciation belong to the time of Galileo, and do not belong to this age. It is rumored that the Rev. Heber Newton will have something to say on this sueject. He has investigated it. In response to several inquiries con-

true pastoral duty. But this wholesale

condemnation is as illogical as it is un-

gentlemanly and untrue. The charge that

Spiritualism is the first stage of catalepsy

or epilepsy is groundless. Figures-

and they are the stubbornest facts on rec-

ord-show that in 58 asylums having

23,323 patients, the number insane from

religious excitement was 412, from Spirit-

tualism 59. I am informed that the great

Methodist revival now going on in New

York, under the ministration of Harrison,

"the boy preacher," is reaping a crop of

lunatics already. Mr. Talmage is per-

cerning the new book mentioned in my last letter, " Periodicals that Pay Contributors," I will say that it is now in press, and writers will find it of great use, especially those who write voluminously, as a consequence have much "declined" manuscript on hand It has also the name of the editor, thus enabling contributors to communicate directly with those in authority. This information will make the book valuable to business men and women generally as well as to writers And now a word about rejected manuscript. There is scarcely a writer with fame enough to immediately float all that he produces. So, smaller fry need not be discouraged. Good articles can all be placed, if writers only know where to send them and this is the missi on of the volume alluded to. It is handsomely bound in cloth, and will be sent postage free to subscribers from 786 Lafayette

Ave., Brooklyn. Price \$1.00. A very interesting story is told of the successful setting of the broken leg of a famous-wolf hound. Dr. Sutton of Penn Ave., Pittsburg, Pa., was the surgeon. This animal, with a pedigree dating back to the time of Noah, and valued at \$1,000. proved to be a very intelligent as well as distinguished patient. The round's name is Czar, and is owned by Paul Hacke of of Homewood. This was Dr. Sutton's first experience as a canine surgeon, but being a man with a heart in his bosom, and withal a lover of dogs, he did not think it beneath him to use all his skill

in the case. The break was a bad one

just above the knee joint of one of the hind legs, and the lower fragment of hone was not more than an inch in length "Czar" watched all the preparation until t came time to administer whleroform, and then he protested. It took six men to hold him. But at last the anesthetic took effect and the work was successfully performed. Then "Czar" was placed carefully upon a bed, and left for the night. The next morning he was found lying in the same position; evidently a raid to stir. When his master told him to arise he obeyed promptly, but with great care of the invalid leg. The dog will be kept from running for a few weeks and will be as good as new. Dr. Sutton has been much complimented upon his

The Providence & Stonington Steam ship Co. will continue their through White Mt. & Bar Harbor express this summer, connecting with the steamers Providence which leave New York every week day from Pier old 29 North River at 6 P. M. The familiar and refrable Stonington line-called the inside route-will do an exclusive Boston and Providence business, leaving every week day from Pier new 36 North River The pool that controls this company ought to have been broken up long ago, but it seems to be still in operation. For travelers bound for particular spots in Rhode Island the Stonington line is most convenient. They can sleep all night and take the morning train for Westerly. What Are These Impurities? The report of the Ohio State Dairy and Food commission on baking powders shows a large amount of residuum or impurity to exist in many of these articles.

The figures given by the commission are OR RESIDUUM 10.18 | r. sct. 12.63 12.66

The question natural y arises in the in the minds of thoughful consumers, Of what does this residuum consist? In the case of the first named powder there has been recently given the result of an anavsis made by Prof. C. F. Chandler, of Columbia College, late member of the New York State Board of Hearth, which parand as the manufacturers of this particubit powder are continuously calling for in baking powders, there can be no objection to its statement here. Among the impurities Prof. Chandler found Cloveof Rechelle salts, 5.49 per cent of lime, with alumina, starch and water, in quantities not stated. Alum is a substance declared by the highest authorities to be beet If the balance of this residuum n all the powders named is made up lie would like to know it. Another official test that shall go quite to the botom of the matter seems to be demanded.

Absolutely Pure. his powder never varies. A marvel of purity strength and wholesomeness. More economica than the ordinary kinds, and cannot be sold in connectition with the multitude of 1 w test, short weight a um or phosphate powders, Sold only in cans.
